London, August 7.

Yesterday arrived a Mail from Holland, and a Mail from Flanders.

From the Brussels Gazette, dated Aug. 13.

From the Imperial Camp under Prince Eugene before Belgrade, July 25.

ON the 19th we finished the Repair of the Bridge over the Danube, and it is now in good and compleat State again. We received Advice from Vice-Admiral Anderson, that 10 Gallies, 20 Saicks, and other Ships of the Enemy, cover'd by some Cavalry at Land, were come a League below where our Men of War were posted at the Mouth of the Ternes; and proceeded as far as our advanc'd Guard, upon whom they fired some Shot, and cast Anchor there. According to the Report of Prisoners taken, and Deserters come into our Camp, since the late Sally of the Belieged, the Loss the Enemy sustain'd in it, was much greater than was imagined, and 'twas talk'd, that the Bissa of Rumelia, who command'd it, was kill'd. The 20th the Enemy's Ships above-mentioned retired, and fell down the River to Semendria. We received Advice from General Baron de Petrasch, that he had march'd with his Militia, and the 300 Imperial Horse, commanded by Colonel Baron de Haller, towards Sabacs; and had with the said Colonel, examin'd the Condition of the Place, and found it not only furnished with a numerous Garrison, but also so well fortified, that without German Infantry and heavy Cannon, they could not put their Design in Execution: And that he remain'd posted with his Men between the said Sabacs and Mitroviz, at hand to cover the Communication with Peterwaradin, and the Foragers of the Army, as also to watch the Motions of the Enemy. The 21st, that General sent Advice that an Order from the Grand Sultan was spread throughout Bosnia, enjoining all that are able to bear Arms, to march to the Grand Ottoman Army, under great Penalty. We perfected that Day the second Bridge of Boats, begun some Days ago, over the Save. We continue our Works at the Attack on the other Side the Save, the better to cover us, as also to perfect our Redoubts, Batteries, and Lines of Communication. The 22d, we brought upon the said Batteries 26 great Cannon and 13 Mortars, to cannonade and bombard the Fortrefs on that Side, and the Water-Town. We received Confirmation, that the Enemy have actually pass'd the Morava, and were arriv'd at Hasser-Palanka. The 23d, at Break of Day, our Batteries on the other side the Save, of 26 great Cannon of 24 Pound Ball, and 20 Mortars, began to play with great Fury on the Fortrefs and the Water-Town, and that the Fire was continued all Day with such Success, that two of the Enemy's Batteries were ruined, the upper Part of the Wall beat down, and the Cannon in Blank dismounted. We hear terrible Cries and Lamentations from the Water-Town, from whence the Troops retire with their Colours, to avoid the Fury of our Bombs; which Fire will be continued to take away from the Enemy all Defence on the side of the Save, and to ruin their Ships and the Castle. We had three Men kill'd this Night. The Turks had never believ'd that we could have been able to attack them on that side, and expected us on the side of the Mountain, where they had prepared themselves by many Mines; but they will speedily be fals'd on that side also. The greatest Part of the Water-Town is reduced to Ashes. We are raising a particular Battery of Cannon and Mortars, to cannonade and bombard the Enemy's fortify'd Island in the Danube, and the armed Barks which they have behind that Island; and we shall afterwards make the Dispositions for opening the Trenches on this side. The grand Army of the Turks encamp'd the 22d at Hasser-Palanka, and according to the Use of it, found upon an Aga taken Prisoner, is ve-

ry numerous, and being but six Leagues from us, we have brought at least 160 Pieces of Cannon upon our Retrenchments; and we have in our Camp Provisions and Forage for 15 Days. A Captain of Hussars, who had been out with a Party as far as Semendria, return'd three Days ago, having beaten a Party of the Enemy, and took 300 Camels, which he sold for three Florins a Couple, not finding Buyers enough. The Hussars and Rascians daily bring in Turkey and Tartar Prisoners, with Camels, Baggage, and other Booty, taken from the Enemy. Last Week, in a violent Storm, Prince Emanuel of Portugal lost three of his fine Horses, that were kill'd by Lightning. The three Men of War posted near Semlin, skirmish daily with the Frigates and Turkish Gallies, which are always repuls'd with Loss. In one of these Skirmishes, Captain Storck had the Misfortune to be wounded in the Head, as was also a Lieutenant and two Seamen, one of whom lost his Arm by a Cannon-Bullet.

Hague, Aug. 10. The Magistrates of Arnhem wrote a Letter to their High Mightinesses, dated the 2d Instant, wherein it was express'd, that the States of Guelderland having by their Resolution of the 31st past ordered the Release of Baron Gortz, upon the Condition that in his Name the Count de Reventlau should declare and promise before the three Directors of the District of Arnhem, that that Baron, as soon as he is come out of his Confinement, shall depart directly for Sweden, having already received Orders for that Purpose from his Swedish Majesty. And that Declaration and Promise having accordingly been made by the Count, the Magistrates have ordered the Baron. Which Letter was sent to the Deputies Committee for Foreign Affairs, for them to make a Report.

Report hath been made to the Lords of the States General, that the Sieur Preis, Secretary of his Swedish Majesty, according to what had been agreed to by their Deputies, had been at Arnhem to speak with Baron Gortz concerning his Enlargement and his Transport to Sweden, but that at his Arrival he had found him already releas'd, by the Resolution of the States of Guelderland, and that going with him afterwards to Zurphen, he had imparted to him the said Agreement, and the Offer of the States of transporting him upon one of their Men of War to Sweden. That the said Baron had indeed express'd all possible Acknowledgments of the Kindness of this Offer, but had at the same time declar'd that besides that his Road ought not to be prescrib'd to him, he could not find his Security in that Transport, because of the English and Danish Ships that are at Sea; unless their High Mightinesses will be pleas'd to Guaranty him, and engage to reclaim him in case he be taken, and to make it an Affair of their own. M. the Pensionary has added to this Report, that the Swedish Secretary had demanded of him, if the States could not get Passports from the Kings of England and Denmark, for the safe Transport of that Baron? The Deputies Committee have this Report under Examination in order to give their Opinion thereupon to the States. In the mean time Mr. Whitworth, Plenipotentiary Minister of his Britannick Majesty, presented on the 4th Instant a Memorial against this Manner of Proceeding in the States of Guelderland, in Relation to the said Baron.
